I love the tutorials. PDF patterns and the awesome tutorials are what finally got me on my way sewing. It helped me build skills and much needed confidence. I also love how I can put them together quickly, without waiting for a sale and gives me access to so many styles! I love the interaction with other sewing enthusiasts (the communities that sprung up around PDF patterns). Last and probably MOST important, I prefer to support the mama and papa businesses! Just one more way I can contribute to true local economies.

When the paper is pulled crooked, the alignment markings are off and with no-trim pages, I find everything is off. With traditional trim pages, I can trim and line up my pattern markings regardless of how my printer has pulled the paper. Tuesday, Mar 22nd 4:27PM

I've taken timeouts and wine breaks, but I've never tossed anything in the trash. Most frustrations are self inflicted. How many times can someone serge a sleeve on the wrong side of a shirt before they remember to double check that? Somehow, I have yet to find the maximum limit.

No, I will contact the designer for help, another think I really like about pdf patterns (you can contact the designer directly). If that doesn't work, I will try to find the designer's fan group on Facebook or another sewing group to ask my question.

Layers!!(See below.) Cutting charts AND pattern pieces for rectangles. I prefer pieces for knits. I also like to watch tv while cutting and I can't do that and measure at the same time. I'm not a good multi-tasker in that situation. I also really want a printing guide. I only want to print what I need. If I'm making a shirt, I don't need the pages for the dress.

Tuesday, Mar 29th
10:46PM

Video links for "tricky" parts.
Love tips and tricks in patterns.
Layered option.
Lots of photos.

Monday, Mar 28th
9:49AM

More pictures across varied body types, even if those pictures are not "portrait:" quality. Also, I would love more patterns designed for C/D cup as the starting point. I find I don't sew for myself as I basically have to redesign a lot of pattern so they keep their intended style AND fit my chest! I know I am not alone here... been on many chat sessions about this. Also PETITE cutting marks. Yes some do include shorten and lengthen lines... but again this usually ends up with me (not a pattern designer) sometimes doing several redrafts to get a good fit)
